- Technical Report Writing
- Resource Management
- Conduits Installation

### SALES

- Competitor knowledge and Intelligence
- Account Management
- Negotiation

## CAREER OBJECTIVE

Being a student of the ECE Department, I have had the pleasure to collaborate with lead Electrical Engineers on multiple occasions with onsite safety standards and manufacturing processes. The description for PROJECT LEAD or MANAGEMENT (hardware and software domains) is an excellent match for my skill set and I am confident I'll be a worthwhile and a profitable addition to the team.
